“Eastern influenced wallpaper has always been CHARMING but it’s definitely making a comeback. Its boldness allows for the ESCAPE we all long for, especially now. It introduces the right amount of HARMONY and BALANCE to a contemporary setting.”

“Wallpaper has the power to create a SUMPTUOUS experience in a room, hiding minor construction flaws, while allowing homeowners to express their PERSONALITY. But don’t cut corners in its application if you are aiming for long-lasting, beautiful wallpaper.”
