

Renos that rock

We're looking for sleek kitchens and beautiful bathrooms to feature, so if yours are straight out of Pinterest, we'd love to see them!

A renovated kitchen by Nisrine El Lababidi of Harf Noon Design Studio, harfnoondesignstudio.com

When it comes to upgrading your home, renovating the kitchen and bathrooms offers the biggest potential for adding value to your property. It comes as no surprise then that many of us are seeking inspiration on what design to follow, which contractor to use, and where to shop for fixtures and fittings. We'll be bringing you lots of ideas in future issues of Better Living, and if you have a kitchen or bathroom reno that you're particularly proud of, we'd like to know. Simply send an email to faye@hotmediapublishing.com with a short description of your space along with a couple of images and we'll be in touch. Thanks!

ED'S LETTER CREDITS
